Tuscarawas Township Slander Case

Concluded. The damage suit of Kittinger against Kittinger, which has been on in court room No. 2 since the middle of last week, came to an end Tuesday evening when the jury returned their verdict. It took them about five hours to reach a conclusion, and the inference is that there was some slight difference of opinion as to what the verdict should be. This is the case in which the daughterin-law sued the mother-in-law for \$3,000 damages for alleged slander. The claim was that the mother-in-law, the elder Mrs. Kittinger, told all sorts of slanderous tales about her son William's wife. It was charged that the stories reflected upon the daughter-in-law's chastity and the whole family seemed to be implicated. The verdict of the jury was for the mother-in-law. They seemed to be of the opinion that the daughter-in-law entitled to any damages. This verdict

### OKLAHOMA'S CLAIMS.

Few territories have ever appeared before congress, asking for admission to statehood, with better claims for favorable action than Oklahoma. The lands of the territory were taken up by an energetic and progressive people, and the growth of population and material wealth has been marvelous. The total tax valuation, as shown by the records of 1900, is forty-nine million dollars, a sum which bids fair to be doubled within the next five years. This rapid growth in wealth is easily explained by the fact that two or three crops from the fertile soil of the territory places the settlers in comparative independence. Take, for example, the crops of 1900, the fourth good season in succession: Twenty-five million bushels of wheat: 15,000,-000 bushels of oats; 70,000,000 bushels of corn, and 140,000 bales of cotton; add to this bountiful yield the product of small fruits and the live stock increment, and a remarkably prosperous condition is at once evident. The wheat crop sold for product brought more than \$6,000,000.

I got quick return from Mr. Coyle and a brief history of the case of the condemned man, and from that statement I believed the poor fellow innocent, and then when I again in a short time was informed that Mr. Coyle and the authorities of the county had made official search and had found the strong box in the location indicated by Little in his statement to Stahlman, I resolved to trap and hold Little until the issue of the matter of finding the inner safe would be settled in Pennsylvania, and have him sate in the event the Pennsylvania authorities wanted him for committing that crime. Broad Intent of Judge Hollister's Decision.

NASH MAY LOOK INTO SPARRING.

It Was Asserted That He Intended Also to Stop Baxing Contests In the State. Cincinnati Affair Declared Off-A Benofit to Be Held.

Cincinnati, Feb. 16.—The Jeffries-Ruhlin contest, scheduled for last night, which was deciared off judicially Thursday, was declared off offcially Friday. Previous to the application for a permanent injunction and when the general opposition to the contest included Governor Nash and the full power of the state, the only thing on which the promoters depended was the permit that had been issued by Mayor Fleischmann for the proposed contest last night. That permit expired at midnight last night and its renewal is not expected by any one. Judge Hollister Friday endorsed the entry of the decree forbidding the contest. A significant feature of the entry on record of

this decree in the Saengerfest Athletic club is enjoined also from accepting hereafter from the mayor in the future a permit for a sparring match, a glove contest or a prizefight. The entry is made so sweeping as to apply to all such events in Hamilton county and elesewhere in Ohio. Jeffries is expected to appear in Columbus tonight, and Ruhlin at Marietta, O. Washington, Feb. 16.-That the opposition to the shipping bill in the senate will not perant a vote to be VICTIMS MAY HAVE PERISHED. taken on the measure at the present session was made clear during the closing hour of Franky's session.

At the conclusion of several hours Consideration of the bill Mr. Teller. of Colorado, announced his purpose to prevent a vote at this session. In an impassioned speech he declared that he would not consent to any agreement to vote and that it must be evident to the advocates of the

bill that no vote could be had. The statement by the Colorado sensisted that despite the declaration of Mr. Teller the business of the senate would proceed in accordance with the wishes of the majority. Mr. Teller's statement also drew the fire of Mr. Chandler, of New Hampshire, who asserted that the position of the opposition was preposterous. Mr. Hanna, of Ohio, replied to Mr. Teller in a forceful speech, in the course of which he became impassioned in his denunciation of the methods employed by the opposition to defeat the measure. The advocates of the bill, he said, were honestly endeavoring to advance the best interests of the country, and he resented the insinuations against their honesty of

Prior to these remarks Mr. Perkins (Rep., Cal.) delivered an eloquent and forceful speech upon the bill, which attracted much attention. He supported the bill, particularly the idea of giving subsidies to American vessels, but pointed out what he believed to be defects in the measure. He attacked especially the provision for the admission of foreign built ships.

Earlier in the day the agricultural appropriation bill was passed after being under discussion for nearly four days.

DAY WASTED IN HOUSE.

Cannon Led Filibustering and Caused Other Obstruction.

Washington, Feb. 16.-Under the leadership of Mr. Cannon, chairman of the appropriations committee, a long filibuster consumed the time of the house Friday. Mr. Cannon desired the house to proceed with the sundry civil appropriation, but was caught napping by the Democrats, who desired to devote the day to the consideration of private claims. It was the last day under the rules which could be devoted to claims at this congress, and notices had been sent out Thursday asking the Democrats to be in their seats Friday.

As a result Mr. Cannon was outwitted, but he kept up the fight all day, forcing roll calls for three hours and later fillbustering in committee of the whole and winding up by making White, Thomas Lord, Robert Steel, the point of no quorum against two small bills, favorably acted upon in committee. The net result was that the whole day was wasted.

As near as can be gathered the explosion took place at about 11 o'clock Friday forenoon in No. 6 shaft. This particular shaft is situated in the village of Cumberland. There were 60 men in it when the explosion took place and not one of them escaped. The explosion ignited the mine, wrecking the shaft from midway down to the bottom and filling it with a solid mass of rocks, earth and timbers. The first explosion was followed by several more, while a dense volume of smoke pouring from the vent holes indicated that fire as well as gas was doing destructive work below.

As soon as possible after the accident the men of the morning shift in No. 5 shaft organized a rescue party. No. 5 is situated about a mile from No. 6, but the two workings are con nected by a tunnel, and through this channel an attempt was made to help unfortunate fellows in the wrecked shaft.

They had not cut their way many yards through the debris when they encountered fire, which rendered the place untenable and obliged the party to desist.

I The message came back by telephone to the surface conveying the heartbreaking news to the relatives of the imprisoned men, whose urging was not necessary to induce the relief party to return to their apparently hopeless task. Overcome at last by gas and smoke they reluctantly withdrew from No. 5 and commenced work on a long cut from No. 4, the only other means of reaching the men. Work on this was presecuted with the greatest vigor until abatement of the fire in No. 5 enabled them to once more return there.

Later news was somewhat encouraging, it being stated that the fans were again working, that the cage had been sent down 175 feet and was still going down in No. 4 shaft.

Of the 60 men imprisoned in the mine the names of the following are

 Walker and two sons, John George Turnbull. Many of the men are married and have large families.

The standard measures of business make favorable comparisons.

At some points there are evidences of an inclination to delay operations in iron and steel until something definite is known regarding the proposed combination, but this applies only to small undertakings, which are insignificant in comparison with the urgent dealings that cannot be postponed. Purchasers find difficulty in securing even approximate dates for delivery of goods in many prodnets and mills are so far behind orders as a rule that no new contracts are sought. Structural material and railway supplies are in greatest request, numerous heavy orders being accepted this week at full prices. There is no inclination to shade quotations of finished forms, and pig iron at Pittsburg again advanced.

News regarding the textile manufacture is less encouraging, despite the fact that sales of wool at the three chief eastern markets rose to 6,972,600 pounds, far exceeding all recent records, and showing a gain of 960,600 pounds over the same week last year. It was at this time in 1900 that the movement commenced to fall off and the depression began which has continued ever since,

LATE RALLY IN MARKET.

Some Stocks Went Up but Movement Not Universal.

New York, Feb. 16 .- A further violent break in the smelting stocks Friday, which carried the common down Miss Clara Baughman is visiting at |2%| and the preferred 2, was the first development to seriously undermine the market. The metal stocks were losses in the steel stocks ran up to 2 points. New York Central was one of the early points of strength, and Delaware and Hudson was also firm throughout, but the market did not respond to these until supplemented

by the late movement in the grang-The absorption of Burlington was very heavy, and it was carried up by rapid stages 51/4 points from the lowest, establishing a net gain of 44. The grangers improved about 2 points or better in sympathy. There were strong recoveries in Brooklyn Transit and Sugar, which, however, left them only small net gains, owing to their early weakness. The general list was at one time a point or more below Thursday night's level for the principal active stocks. The late rally was not by any means universal, but many prominent stocks were lifted from their early depression. New York Central's rise of 31/4 and Delaware and Hudson of 10 points apparently had some connection, although what it was was not disclosed. There were some notable movements of some unusually ob-

scure stocks. Apparently the suspense of the continued negotiations over the great steel merger and uneasiness over the money outlook were the influential factors in repressing speculative activity. A decline in the call money rate to 1% per cent at the close had something to do with the final rally. The softness of the money market Friday afternoon may be the prelude

### THREE PLANETS NEAR EROS

Dr. Brooks Reports a Discovery by Means of Photographic Plates.

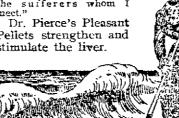

Dr. William E. Brooks, director of the Smith observatory in Geneva, N. Y., has discovered three small planets rear Eros by means of photographic plates, says the New York Sun. The piates were taken a few evenings ago. While developing the negative Dr. Brooks noticed that there were apparently other bodies than Eros on the plate. The newly discovered planets are within one degree of Eros The brightest one of them is somewhat brighter than Eros.

They belong without doubt to the series of planets and other bodies which are revolving between Mars and Jupiter, of which the first one, Ceres, was discovered Jan. 1, 1801. Most of the little fellows revolve in tain periods and approaches to within mination of the sun's parallax. Dr. Brooks will keep the newly discovered planets under observation to discover their identity and orbits.,

### It's Time Wasted

And strength wasted, to try to push back the rising tide with a broom It's just as great a waste of time and a far more serious waste of strength to try to push back the rising tide of disease with the "nervines," "compounds" and "nerve foods" which simply drug the nerves into a drunken stapor. They make you feel good? So does whisky, while the feeling lasts, but the reaction is dangerous and deadly. Dr. Pierce's Golden Medical Discovery is a temperance medicine. It contains no alcohol, opium, cocaine or other narcotic. It strengthens the body by purifying the blood and increasing the supply of that vital fluid. It heals diseases of the stomach and organs of digestion and nutrition and thus removes the obstacles to a perfect nourishment of the whole body. "Six years ago my stomach and heart troubled me so much I had to do something, as the dectors could not help me," writes Mrs. S. A. Knapp, of San Jose, Califernia, Box 392. "I went to San Francisco and had treatment for catarrh of the stomach and was better for some time, then it came back. I then used Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' These medicines cured my stomach. I do not have the pain and indigestion as I did. It is very hard for me to tell you what I suffered before I commenced taking fore I commenced taking your valuable medicine. I recommend it to all

sufferers whom I

### GENERAL IEL HEALTH.

SEASE with no specific name. which seems to combine stomach disorder, beart trouble, blood disorder and a host of

other ills, and which can be described only by saying you feel "all knocked out" and "good for nothing," means that your kidneys are overburdened and need relief. Kidney derangement is almost al-

ways at the bottom of general ill health. Your doctor knows this, but he usually treats the various symptoms one at a time. Foley's Guaranteed Kidney Cure gets at the bottom of these troubles and

cures them all at once. You run no risk. Satisfactory results are guaranteed.

For cuts, bruises or sores BANNER SALVE is best.
